

# EHPS Distance Learning Request Form

Parent Name \_\_\_\_\_

Name(s) of Student(s) requesting distance/remote learning:  
\_\_\_\_\_

I am requesting consideration of distance learning permission for my child during the 2022-2023 School year.

Reason for request:

\*Eligibility for remote learning requires that:

- a. The student remains actively engaged and in good standing with the remote learning instructor. This would include maintaining passing grades, having appropriate work completion and satisfactory work habits to properly gain proficiency of the curriculum.
- b. The student's home office space has good internet access and a computer, iPad or appropriate electronic device to support video conferencing and electronic coursework.
- c. Students/families opting for remote learning will be provided proficiency based instructional service between the hours of 8:00 AM - 4:00 PM during scheduled school days.

Once a student is approved for distance or remote learning, the student may not be allowed to return to regular school attendance until a quarter, trimester or semester break.

Poor performance or attendance by a remote learner or difficulties fulfilling the requirements and rigorous content will be cause to revoke permission for remote learning.

The school Building Principal will make the final determination about the appropriateness of the setting for the best learning platform for the student.
